

U7HD

**HD Radio™ / AM/FM-RBDS/Bluetooth/AUX/
TWS Ultra Rugged Dustproof/Waterproof Digital Radio**

Black

The U7HD is a rugged radio designed for various harsh environments. Its IP65 waterproof and dustproof performance, along with its shockproof roll cage design makes it suitable for any outdoor environment and construction sites.

In addition to receiving AM/FM radio stations, the U7HD utilizes HD Radio™ technology to deliver more clear and static-free broadcasts. It also includes an emergency alert feature, keeping you informed of important real-time information. The 2.4-inch color TFT display and wireless Bluetooth streaming feature allows you to enjoy your favorite music with a convenient and smooth experience.
